DESCRIPTION

- Top sliding system for doors with weight up to 80 kg (176 lbs).
- Standard installation: Inlay

APPLICATIONS

- Ideal for access to bedrooms, offices and space divider.
- Optional lateral brackets for barn door installations.

FEATURES

- Stoppers with retention device installed inside the track will retain the door in position.
- Ball bearing high quality rollers and aluminum track allows for a silent and smooth glide.
- One box with all you need to install 1 door, just order the track and you are ready to go.
- Optional U21 Fascia will easily connect with a snap to the U21 track providing a clean, solid and elegant look.
