

Hitching Ring with Lag Screw

Product # 2177XB

DESCRIPTION

Zinc-plated

Hitching ring with lag screw shares its design with the ring bolt and nut, but has a unique purpose. Designed for tying down ropes and similar applications. Lag screw mounts securely in wood, while hitching ring allows for flexible movement. Easy to install and suitable for many outdoor applications including fastening pet leashes.

ADVANTAGES AND BENEFITS

Zinc-plating provides corrosion resistance.
