

Commercial Hinge Pin Door Stop Saver

Product # 221301286

DESCRIPTION

DoorSaver II is simple to install, looks great, and stays in place without 'creeping up.' Its ultra low profile design replaces the hinge pin to create bumperless protection for doors and trim.

Works with commercial hinges 3-1/2 in and 4 in high with 0.31 in diameter pin.

- Bumperless design eliminates damage to doors and trim: the door stop does not come in contact with the door or door casing
- Ultra low profile
- Installs in seconds
- Hinge-mounted to fit all commercial doors
- Won't 'creep up' like conventional hinge-mounted products (on hinges 3-1/2" and 4" high with 0.31" diameter pin)
- Has multiple adjustments to create the perfect stopping point
- The stopping point can be readjusted quickly and easily
- Made from strong carbon steel

TECHNICAL SPECIFICATIONS

Product #	221301286
Diameter	0.31

INSTALLATION INSTRUCTIONS
INSTRUCTION POUR INSTALLATION
INSTRUCCIONES PARA INSTALAR

1

3a

3b

2

1. Remove old hinge pin.
Retirer le vieux pivot épinglé.
Retirar la espiga de bisagra vieja.

2. Drop in the DoorSaver II Commercial.
Laisser tomber la DoorSaver II Commercial.
Ponga la DoorSaver II Commercial en la bisagra.

3. Adjust top cam until door opens to desired angle. (Rotating top cam, as in figure 3b, provides additional settings.) Install optional screw cap.
Ajuster le haut cam jusqu'à ce que la porte s'ouvre à l'angle désiré. (Rotation le haut cam comme dans l'image 3b, donne d'autres réglages.) Installer l'option vis et bouchon.
Ajuste la leva superior hasta que la puerta se abra al ángulo deseado. (Dando vuelta a la leva superior como se enseña en la ilustración 3b, le dará otras opciones.) Opcionalmente, puede instalar la tapa con rosca.
