

Gate Spring - 304

Product # 304WR

Finish White

Material Steel

DESCRIPTION

An adjustable-tension spring that allows gates to close themselves. Sturdy and reliable. Easy to install.

ADVANTAGES AND BENEFITS

Adjustable tension on spring allows gate to close itself.

TECHNICAL SPECIFICATIONS

Product #	304WR
Screw/Nail	Included

INCLUDED PRODUCT(S)

Mounting hardware included.

IMPORTANT INFORMATION

The "STOP" plate must be installed so that the flat side of the adjustment bolt is always fully in contact with the "STOP" plate. Make sure that the plate is centered to prevent the bolt from moving it to the left or right. The spring inset must be between 1/4 in (6.35 mm) and 1 in (25.40 mm) to keep the "STOP" plate in place.

APPLICATION

For use on gates.
