

Professional French Cleat

Product # 4578R

Safe Working Load 300 lb

Length 30 in

DESCRIPTION

Interlocking brackets modeled after the French cleat

The professional French cleat hanger is a variation of the heavy-duty hanger with several unique features. The overlapping design of the mounting bracket provides high torque leverage for use in hanging cantilevered shelves. The wall track is punched every inch making it easy to hit at least one stud. In addition to hanging shelves, it works great on cabinets, mirrors and other heavy wall decor.

ADVANTAGES AND BENEFITS

Wall track punched every inch making it easy to hit at least one stud. Overlapping design provides high-torque leverage for hanging heavy items.
