## IMPORTANT INFORMATION

Mounting screws included. - Plate: 2 1/4 in (57.10 mm) long, 1 3/8 in (35 mm) wide, 1/32 in (0.79 mm) in gauge - Ball catch: 1 5/32 in (29 mm) long, for 1 in (25.40 mm) bored hole

## APPLICATION

Step 1: Mark desired location of door. Drill a hole 27/32 in (21.43 mm) in diameter, 1 1/4 in (31.75 mm) deep. Step 2: Set the body in the hole by pressing down. Step 3: Ensure strike plate is aligned with ball catch on the door frame. Step 4: Use mounting hardware provided to tighten strike plate. Used on doors with dummy knobs or levers to form a secure closure.
